

To help meet your needs, I have compiled a list of local food pantries in our area. Many of these pantries are being assisted with food from the Northern Illinois Food Bank, which assists over 900 pantries and mobile food markets. Each week they are distributing free to you fresh groceries throughout Northern Illinois. Please keep in mind that these mobile food markets are first come, first served, and while supplies last. No proof of income is needed. To check out their list of events visit solvehungertoday.org

The following is the list I have complied with area free food distributions. Many are at Churches so I would suggest to call the phone numbers next to the listing to find out what their requirements are for identification purposes of proof of residency if needed, and to check on availability dates as sometimes those dates may change. You can also call 211 on your phone for United Way of Lake County who can assist you in food resources and information on utility bills help and other information.
